

A vintage orange VIMS car is driving away from the viewer on a winding asphalt road. The car has a license plate that reads "B-AG 2401". Two people are visible in the back seats. The road is bordered by a stone wall on the right and lush greenery on the left. In the background, a steep cliffside meets the ocean under a bright sky.

VIMS.WORLD

Some icons never fade—they evolve.

The Electric Mehari is a modern reinterpretation of the 1968 classic that defined freedom, simplicity, and adventure.

Reborn under the vision of VIMS, it retains the original charm while embracing a fully electric heart.

Sustainable materials, precision craftsmanship, and advanced EV technology unite to create a vehicle that's as pure and joyful as the road itself.

DESIGN & HERITAGE

Our Electric Mehari is a tribute to an icon. We've kept every ounce of its classic, rugged charm from the lightweight body to the liberating open-air experience. But beneath the vintage style lies modern innovation: a fully electric powertrain that delivers a surprisingly quick and ultra-quiet ride. It's the timeless design you love, perfected for today's world.

Authentic Design: The original's minimalist charm and lightweight frame, built to evoke a pure sense of nostalgic adventure.

Zero-Emissions Drive: Experience an exhilarating, ultra-quiet ride with the clean and efficient power of a state-of-the-art electric motor.

SAFETY & COMPLIANCE

The open-air freedom of the Mehari is matched by our commitment to modern safety. Every element is engineered to provide structural integrity and peace of mind, allowing you to focus purely on the joy of the drive.

Reinforced Roll Bars: Independently certified by Germany's TÜV, our roll bars provide exceptional protection and structural reinforcement for your security.

Modern Restraints: Equipped with 3-point seat belts for all passengers, ensuring modern safety is standard on every journey.
